GMB - 375/63
13 June 1963

MEMORANDUM FOR: Chief, Military Division, ORR

ATTENTION: [REDACTED]

FROM: Chief, CIA/PID (NPIC)

SUBJECT: Construction in Cuba

REFERENCE: Requirement No. ORR/23/63 (Project No. C 119-63)

1. In response to Requirement No. ORR/23/63 (C 119-63), a detailed study was made from high and low level aerial photography to determine the dimensions and construction material of (1) the earth-covered revetments at San Antonio de los Baños, Santa Clara and Holguin Airfields, and (2) the drive-through earth-covered bunkers at the Managua munitions storage site. Dimensions of the earth-covered prefab concrete arched structures at Guanahey and Remedios IREM Sites and the San Cristobal MIRM Site #3 were also requested.

2. The information requested was forwarded to your office prior to 8 February 1963 via telecom between [REDACTED] PID/GMB, and Mr. [REDACTED] ORR/MD.

3. The photo analysis on this project was performed by [REDACTED] For any additional information on this project please contact [REDACTED] CIA/PID/GMB (NPIC), [REDACTED]
